

## **Physical Education Teaching Position (PK-12)**

**Position Summary:** The individual in this position is to provide a strong foundation of learning in all kinesthetic and locomotion areas while encouraging a passion for learning. Use a variety of teaching methods to ensure student psychomotor success and promote an exemplary program which fosters achievement for all students. This full-time position is for a high-energy, highly motivated individual who is willing to impart their love for a healthy, active life along with a strong commitment to team work.

**Essential Duties and Responsibilities:** Create a positive learning environment and effective management structures to purposefully promote and foster effective teaching, learning, and student achievement. Develop lessons that are engaging, differentiated, and aligned with state standards. Ensure all classroom processes, procedures and data collection are highly organized and effective with optimal use of instructional time. Motivate, engage, and empower learners to seek and achieve high goals. Expectations of this position include development of fine and gross motor skills for young students as well as foundational skills necessary to be successful high school athletes. At Arickaree, we believe in preparing students for after Pk-12 education so development in life-time activities such as bowling, archery, and table tennis would be highly encouraged. A high school health class is also part of this teaching assignment.

Provide quality, accurate, constructive, corrective, specific and timely feedback to students that encourages them to perform at their highest level. Effectively communicate with all stakeholders about student progress in an appropriate manner.

Use technology to align with 21st Century Learning styles
