

CURRICULUM ADOPTION

The Board of Education is required by State statutes to determine the educational programs to be carried on in the schools of the district

Accordingly, after planning by the faculty and with the approval of the administration, all new programs and courses of study, as well as the elimination and extensive alteration of the content of current programs and courses, will be presented by the Superintendent to the Board for its consideration and action.

Generally, new courses will be introduced on an experimental basis and will be evaluated at least annually by the Board. When the administration feels that an experimental course should become a regular part of the curriculum, such a recommendation will be presented by the Superintendent to the Board for approval.
